EXPERIENCE

Software Engineer

Tekion

📅 July 2022 - Present 📍 Bangalore, India

- Part of Automotive Retail Cloud team as BE dev to ease up customers & dealerships end to end automotive service experience.
- Gained good skill in writing modular code for production and deliver better functionalities.
- Owns several microservices and improving their efficiency and stability.
- Well experienced in determining and resolving production issues to unblock customers and provide a quick strong solution.
- Helping interns and team members to deliver release tasks before time and consider well written test cases along with the modular code.
- Developed strong skills in Java Spring, ElasticSearch, MongoDB, Kafka.
- Optimized ES indexes to make search fast and cost-effective.

Software Intern

Tekion

📅 Jan 2022 - June 2022 📍 Bangalore, India

- Developed a well scaled interview/hiring portal with CRUD operations to ease up candidate interview process and track their progress/selection.
- Strong skill in React JS to develop various components to make a better UI.
- Used Redux to manage client/server side data using states.

PROJECT EXPERIENCE

Road Accident Management System

Developed a ML based efficient system to avoid and help in the most common real world problems causing road accidents.

ThoughtsandMe - CRUD Webapp

A web journal portal with full encryption, amazing CRUD operations, users can register to publish their thoughts publicly/privately/anonymously. Used Python, MySQL, Flask, SQLAlchemy and MySQL and all set for deployment.

Covid-19 Vaccination Scheduler for Hack 20-21 Hackathon

Portal for everyone to register for covid vaccinations and get scheduled appointments as per priority.

SUMMARIZED

I am a dedicated, driven software developer with around 2 years professional experience writing production code, utilizing a wide variety of languages, including Java, ReactJS and various tech stacks. I am quick and eager to learn, and pick up new technologies effortlessly. I am committed to finding the best solution for any given problem as well as reinforce my existing technical expertise.

EDUCATION

B.Tech, Computer Science (8.6 GPA)

Indian Institute of Information Technology Ranchi

📅 Aug,2018- Jul,2022 📍 Ranchi, Jharkhand

Intermediate(XIth - 88.2%)

Ch. Chhabil Dass Public School

📅 2017- 2018 📍 Ghaziabad, U.P.

High School(Xth - 10.0 CGPA)

Ch. Chhabil Dass Public School

📅 2015- 2016 📍 Ghaziabad, U.P.

TECH STACK

Java 11 SpringBoot Kafka
Microservices C/C++ Javascript
ReactJS MongoDB MySQL
ElasticSearch

MOST PROUD OF

ACM ICPC '20 Regionalist

Secured 433 global rank in ICPC Amritapuri Regionals 2020

ACM ICPC '19 Regionalist

Secured 86 rank in ICPC IIT Kharagpur Regionals 2019

Google Hashcode 2020

Secured 172 Country Rank in Round 1

Coderation Codechef - Inter IIIT Contest

Global 60th and 1st rank in college

Feb Lunchtime Codechef

97th rank globally in Lunchtime contest by Codechef

Inter College fest-NIT Jamshedpur

Ranked 1st in 2018 batch and 6th global in Tech Fest Ojas - NIT Jamshedpur.

STRENGTHS

Hard-working Persuasive
Motivator & Leader Quick Learner
On Time code Delivery
